Opis produktu

Guitar - dog for creating and listening to music, intended for children aged 2 to 6 years, operating on 3 AA batteries.

The guitar is accompanied by an instruction manual and a booklet with lyrics (a great help in learning the English language) and instructions on how to use the buttons corresponding to the chords to play known songs.

The guitar has 3 different sound versions - acoustic guitar, electric guitar and a cute barking dog.

Plays 20 popular songs and 7 fun "bark" melodies.

8 buttons hide guitar chords from C to C recorded in a professional studio. The guitar strings allow you to create sequences of chords and recorded songs. "Dog bark" adds a typical effect for a professional guitar.

The guitar has a volume control. The dog's nose is a "stop" button - an instant stop of the toy. Additionally, the guitar is equipped with an automatic shut-off function.

The toy does not contain phthalates or BPA (bisphenol A).

Dimensions: 24,1 cm x 9,5 cm x 45,7 cm.

The toy has won the title "Toy of the Year 2013".

It was also honored with a distinction in the XI edition of the "Friendly World for Children" 2013 competition, organized by the Committee for the Protection of Children's Rights, under the patronage of the Ombudsman for Children's Rights.
